

A detailed digital illustration of three Oviraptor dinosaurs in a naturalistic setting. The dinosaurs are bipedal, covered in brown and grey feathers, with prominent red and blue skin patches on their faces and necks. They have a distinctive crest on their heads. The central dinosaur is in the foreground, facing left, with its wings slightly spread. Two other dinosaurs are in the background, one to the left and one to the right, both also facing left. The landscape features a dirt path, green ferns, and a body of water in the distance under a bright blue sky with scattered white clouds. A semi-transparent brown box with white text is in the top right, and another semi-transparent brown box with white text is in the bottom left.

# *Oviraptor*

Geen tanden, maar snavel  
1,6 meter lang, 22 kilo  
Leefde op zandduinen

# ***Kampioenen***
